

Ingka Group

Our financial year 2023

Summary

At Ingka Group, we are purpose driven and live for the IKEA vision to create a better everyday life for the many people. We are passionate about life at home and are transforming to create a better IKEA that is affordable, accessible, and positively impacts people and the planet.

Our value creation strategy means we seek to make balanced decisions and measure performance holistically across four areas: Better homes for our customers, Better lives for the many people and our co-workers, a Better planet for all, and a Better company now and for future generations.

Financial year 2023 (FY23) marked the 80th business year for IKEA – 80 years of offering affordable home furnishing to our customers and being financially independent. Our revenue increased by 5.4%, and we delivered EUR 1.5 billion in net income.

We constantly strive to be a **Better company**. To secure that we make IKEA more affordable, accessible, and sustainable, 85% of net income is re-invested in the company. The remaining 15% is paid as dividend to the sole owner of Ingka Group, Stichting INGKA Foundation, which has a charitable purpose that is achieved by providing funding to IKEA Foundation, an independent, strategic philanthropy that focuses its grant making efforts on tackling the two biggest threats to children's futures: poverty and climate change. There is no dividend going to any private shareholder.

Financial year 2023 (FY23) runs from 1 September 2022 to 31 August 2023

To allow **Better homes** for all customers, we launched three commercial activation packages to save energy costs and reduce the overall cost of living. We grew our efforts to encourage customers' circular thinking and participation in life at home.

In and outside our value chain we make significant investments for a **Better planet**: Ingka Investments plans to invest EUR 6.5 billion in renewable energy. An additional EUR 1 billion is earmarked for innovation and transitional technologies that go beyond energy production and support the wider energy transition. This brings the total commitment to the renewable energy sector to EUR 7.5 billion. Heavy investments will be made to replace heating and cooling installations for existing IKEA buildings, while all new buildings will be equipped with these systems from the start.

We are very proud of our continued efforts to support **Better lives** – for our co-workers and for a fair and equal society. Throughout FY23, we worked with our Responsible Wage Practices framework and focused on closing the Gender Equal Pay gap.

We are 80 years old but young at heart. As Ingvar Kamprad said: "It is our wonderful fate of being just at the beginning. In all areas. We will move ahead only by constantly asking ourselves how what we are doing today can be done better tomorrow".

Juvencio Maeztu
Deputy CEO and CFO of Ingka Group
